Tribul Merchant Services Announces Partnership with Dejavoo Systems
*Strategic Alliance Will Offer Customers Dejavoo X8, A Solution for Desk top and Handheld
Wireless Point-of-Sale (POS) Terminals*

New York, NY (April 15, 2008)— Tribul Merchant Services (www.tribulonline.com), a New York-based full service provider of point-of-sale (POS) credit card processing and e-commerce solutions to regional and middle market merchants throughout the United States, announces that it will offer customers Dejavoo Systems' Dejavoo X8, a technological solution service for countertop merchants needs.

Dejavoo Systems (www.dejavoosystems.com) is a U.S. and Latin American-based value added reseller and a developer of next generation point-of-sale (POS) devices for desk top and handheld wireless POS terminals and secure applications, related programs, systems and services. Dejavoo provides front end value added services customized to the fast growing cash advance industry by providing constant and continuous communication between the terminal and the ISO.

Its product, the Dejavoo X8, uses an embedded operating system and Internet Protocol (IP), leveraging speedy development for payment applications and new value-added solutions. Using digital connectivity, users easily and securely upgrade software and programs, perform card payment transactions and install software and other modules. Downloading programs and services is also possible through a "click and draft" method from a PC, USB key, dial up or IP communication.

“Tribul Merchant Services is focused on our merchant customers’ future and our goal is to constantly provide services and products that they can deploy effortlessly to improve back-of-the-counter functionality, productivity and efficiency,” said Sam Chanin, CEO of Outside Ventures, LLC, the parent company of Tribul Merchant Services. “We are delighted to provide our restaurant and retail clients with Dejavoo X8 so they can benefit from this value added program.”

“We are pleased to partner with Tribul Merchant Services to offer Dejavoo X8, a solution that provides more while accommodating to the changing needs of Tribul’s clients,” said Mony Zenou, founder, president and Chief Executive Officer (CEO), Dejavoo Systems. “Dejavoo Systems’ objective is to offer innovative solutions that have robust features and services that deliver cost and time-to-market advantages.”

###

** Please note: High-resolution images of Dejavoo X8 are available to interested media. Please contact Diane Johnson, diane@dtjorg.com or 703.391.2056 or Debbi Mayster, debbi@dtjorg.com or 301.770.8738 to request digital copies.*
