

AURA

Visually enhanced terminal software for an improved customer purchasing experience.

DējavooSM
Payment Software Solutions

Easy to use, color coded touch screen technology provides seamless transactions, bringing your customers' purchasing experience to a new level!

WHY SWITCH TO AURA?

- New enhanced communication module (Wifi, Ethernet fall back etc.) with improved 3G/4G support
- For Linux and Android
- More advanced and organized libraries enabling faster development and easier support
- Stand Alone or for Semi-Integration
- Color Coded for Easy Use and Navigation
- Tomorrow's payment experience TODAY
- Graphic, intuitive interface enables new apps, such as Serve At The Table
- All new features going forward will be developed using AURA software
