

## Product End of Life (EOL), Z3 and Z6 (V3P)

Dear Valued Customer,

Our supplier has announced the End of Life (EOL) of Castles V3P product, which includes the current models of the Dejavoo **Z3** and **Z6**. The main reason was cited to be “serious material shortages that are impacting production”.

The **Z3** and **Z6** products will be replaced with a single new model that we will continue to call the “**Z6**” (manufacturer’s model V3P3), a model that enables Castles to minimize its costs and secure better access to components. This product will operate with our existing EMV Kernel, maintaining current Dejavoo applications, certifications and systems.

Below are key dates that should be acknowledged:

MILESTONE	DEFINITION	DATE
<b>EOL Announcement</b>	End-of life notification has been distributed.	June 30, 2022
<b>End of Sales</b>	The last date purchase orders can be submitted for the above products. <b>PO's placed after June 30<sup>th</sup> cannot be cancelled.</b>	September 30 2022
<b>Final Shipment date</b>	Last date to ship final purchase orders.	March 31, 2023
<b>End of Life and Support</b>	The last day to receive service/repairs and technical support.	September 30, 2025

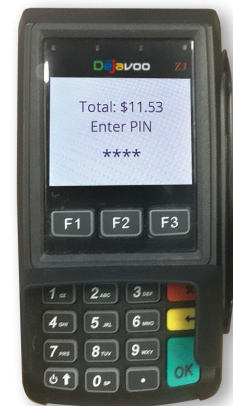

Please contact your Dejavoo sales representative if you have any questions or require further information.

Sincerely,

**Joe Casella**  
President, Dejavoo Systems
